- Communication through Viber /messenger (online updates)
- Physical School visit
- Reporting system
- Facilitator's work (communication, behavior and attitude, content knowledge, regularity)

What I Liked About E-Package Program

E-package programme was actually nice and effective during COVID-19 pandemic. The documents (materials) provided were very helpful in conducting online classes. Students and teachers both got helped by these materials in teaching- learning field. The songs and stories along with other activities had helped children learn their lessons in an effective and easy way.

Weekly meeting, follow up, webinars found to be beneficial for the teachers. Facilitators had done their jobs perfectly. They were polite, motivating and helpful. Because of them, this programme was successfully running in our school. As a coordinator, I found nothing to be improved in this program.

Thank you!

Room for Improvement in E-Package Program

As a coordinator, I found nothing to be improved in this program.

Thank you!!!
